20. (Original) The one-piece introducer of claim 16, further comprising:
a scoreline formed on the tube portion.
21. (Currently Amended) A one-piece introducer comprising:
at least one finger tab portion;
a tube portion having a scoreline; and
a valve formed at a proximal end of the tube portion, wherein the at least one
finger tab portion, and the tube portion, and the valve are formed as a single integral piece.
22. (Previously Amended) The one-piece introducer of claim 21, wherein a hinge is located
between the tube portion and the at least one finger tab portion.
23. (Original) The one-piece introducer of claim 21, wherein the tube portion is substantially
hollow.
24. (Original) The one-piece introducer of claim 21, wherein the finger tab portion has a
shape which is one of substantially rectangular, cylindrical, spherical, and square.
25. (Currently Amended) A one-piece introducer comprising:
a tube;

Application Serial No. 09/753,355
